The Whirlwind Campaign.

Kentucky pays out in round numbers \$3,000,000 a year for education. On the basis of its native white-born voters who make the men and enforce the laws and administer the government, Kentucky is the most illiterate of all the States and territories, with the exception of North Carolina, Louisiana and New Mexico, says the Louisville Times. The assumption that Kentucky has not been getting an excessive return on the money expended for education, would seem not to be strained. That Kentucky is one of the most lawless of all the States and territories, is a fact of record. That there is more than a remote relation between Kentucky illiteracy and lawlessness, is a further assumption which does not appear strained.

The present week, which has been set apart for a "Whirlwind Campaign of Education" may, therefore, be regarded as one of some moment, as it effects Kentucky's status and outlook.

The late session of the General Assembly enacted a law for the establishment of district and county high schools and passed appropriations sufficient for the support and enlargement of the scope of unusefulness of the State Normal Schools and the State University, which latter was created by the Legislature out of the State Agricultural and Mechanical College at Lexington.

Under the School law provision is made for the election of none but white School Trustees who can read and write, the division into school districts being based on the number of white voters, so that while the negroes are left with the power to vote, which they enjoy under the old system, it is impossible for a negro School Trustee to be elected. As the Constitution forbids the attendance of negroes and whites at the same school the operation of the provisions of the new law, as it affects both races, is left wholly in the hands of the white race. It is, therefore, upon the native white Kentuckian, the foreign-born white element being too small to consider, that the burden of redeeming Kentucky from illiteracy rests. The means provided are practical, the district school leading up to the county high school and the high school to the State Normal School and University. The new system is not experimental. It is identical with that which other States have found effective in the solution of their problem of illiteracy. Its successful operation will relieve Kentucky of its two greatest handicaps, illiteracy and lawlessness.

It is to explain the meaning of the law and to create a new spirit in Kentucky for education, for law, for good citizenship, that the present campaign was planned. Its success means more than men now living can estimate or realize. It must not be allowed to fail.

Inheritance Tax Suits.

Nearly \$500,000 inheritance tax suits were filed at Louisville a few days ago against various estates by State Revenue Agent Arthur E. Hopkins. The largest is against the Executor of William E. Stratner, for \$100,000, of which the Agent claims \$5 on each \$100, making the tax alone \$5,000.

Booe Denies Indiana Charges.

Judge Charles Booe in an interview at Frankfort Sunday denies he was involved in the shortage of Treasurer Miles, of Fountain county, Indiana, as indicated in a despatch from Covington Ind., yesterday. He admits he was arrested on charges of irregularities in the Covington School Board, but it afterward developed that the irregularities were due to clerical errors. He also admits that there were rumors that he was to be indicted for having connection with the Miles shortage, but that he was never called to answer for that charge. Judge Booe said that he was "straight as a string" until he became connected with the Auditor's office at Frankfort.

Big Victory for State.

The State won a big victory Tuesday when Judge Robert L. Stout, who is now holding court here, mailed a letter to Ben Marshall, Circuit Clerk at Frankfort, instructing him to enter judgment against the Southern Pacific railroad in a case pending in that court.

Judge Stout directs a reassembling of the State Board of Valuations and Assessments and a reassessment of the Southern Pacific railroad. Judge Stout simply orders that the assessment be made according to law and does not fix either maximum or minimum which shall be fixed. The present valuation is only nominal, and it was sought by the attorneys for the State to have the valuation fixed at \$250,000,000, the amount of capital stock and bonds of the railroad. If this valuation is fixed the railroad will have to pay the State \$6,250,000 in taxes, covering a period for the past five years, suit having also been filed to recover that amount in back taxes from the railroad.

This case has been pending for a long time and will now go to the Court of Appeals for final determination. The State Board of Valuations and Assessments had fixed the valuation of the railroad at a nominal sum and its taxes at only \$5,000, as the railroad does not operate in this State, although it has its home office here. N. B. Hays, Attorney General under the administration of Gov. Beckham, and Chas. Morris, who have been working up the case, filed suit to recover back taxes, alleging that the railroad should have been assessed at its full value.

Loses Certificate to Teach.

The State Board of Education Wed-
nesday upheld Prof. J. G. Crabbe, Super-
intendent of Public Instruction, in
his action in sustaining the county
school superintendent of Clark county,
who revoked the school certificate of
J. H. Thomas.

The style of the case was Thomas
against Tanner, and it has been pend-
ing for some time. C. A. Tanner, as
county superintendent of Clark county,
took away the certificate to teach which
had been issued to Thomas, because
Thomas failed to attend a meeting of
the teachers of the county in a county
institute. Thomas appealed his case
to the State Superintendent, as is pro-
vided by law. Prof. Crabbe sustained
the county superintendent, and an ap-
peal then was taken to the Board of
Education. The latter board sustained
Prof. Crabbe, and Thomas loses his
right to teach in Clark county.

Musical Telegraph Wires.
Telegraph wires may be defended from the musical standpoint. The sound they make is often curious and beautiful, as everybody knows who has put an ear to one of the great posts by the highway when the wind is twanging through half a hundred wires overhead.—Saturday Review.

Boss Bill Writes a Card.

In order to set himself right before the Republicans of Kentucky, Senator-elect Bradley has written a card in which he declares that he has entered no combination for the distribution of offices. Senator Bradley says the fact that a man was for or against Mr. Taft for the nomination for President should not recommend him, he says the impression that he would fight those who were for Taft and endorse those who were for Fairbanks was entirely erroneous. He says he will recommend the men best suited for the places irrespective of who they were for the Presidential nomination. And we see where Boss Bill is right.

Still Running the Gauntlet.

"Standard Oil" will continue to run the gauntlet in several phases of the prosecution against the great corporation in sundry places. John D. Archibald will return to the witness stand in New York City before the referee who is taking testimony in the Government's suit for the dissolution of the Standard Oil Company of New Jersey. There may be developments of the famous \$29,000,000 fine before the United States Supreme Court, which resumes sessions at Washington after a fortnight's recess. At Buffalo is scheduled the company's action for a new trial of the rebating case in which it was convicted at Rochester last spring.

Game Plentiful.

It is said that the recent game laws passed by the Kentucky Legislature have worked wonders in the Southern part of the State. Quail are plentiful and the supply of pheasants, which had almost been exhausted, is growing rapidly. Abundance of wild turkey is also reported in the southern part of Polaski and Whitley counties. Until these laws were passed four years ago, the above variety of game had become almost extinct from pot hunters. Sportsmen say this season has been the banner one for quail, pheasant and turkeys in many years, and the supply is growing.

Stevenson to Contest.

Adlai E. Stevenson, beaten on the face of the returns by more than 22,000 votes, purposes a contest against Charles S. Deneen for the governorship of Illinois for the coming four years. The defeated Democratic candidate has been brought to the belief that he received a majority of the votes cast as between himself and Gov. Deneen at the recent election, and final plans were made yesterday to attempt to throw the governorship into the approaching convening of the Illinois General Assembly.

New Chinese Era.

Tomorrow will see the beginning of a new Chinese era, perhaps in many senses of the word, with the enthronement of the infant Emperor of China Pu Yi. It gains interest from the publication of the American-Japanese agreement as to their attitude toward the integrity of China.

Insurance Problem to be Considered.

Life insurance problems will be considered at the Association of Life Insurance Presidents, which will hold its second annual meeting in New York City Friday and Saturday. The first day's proceedings will be devoted to memorial addresses in honor of the late Grover Cleveland, who was the first chairman of the association.

Young Farmer Killed.

Robert Brewer, a prominent young farmer of near Danville, was shot and instantly killed Saturday night by his neighbor, George Gordon. Brewer attempted to pass Gordon in the road when a dispute arose. They had been on good terms previously. Gordon was arrested and placed in jail Sunday morning at Danville.

Women Stockholders.

Women own practically fifty per cent of the stock of the Pennsylvania railroad. Forty-seven per cent, in the exact amount, with a value of more than \$148,000,000. Thus nearly half of the semi-annual dividend of the road, \$9,437,839, which was distributed Saturday goes to women.

Playing "Follow the Leader."

Andrew Schier, 8, scaled a tall chimney of an abandoned brewery at Patterson, N. J., Saturday, and stood for a moment triumphant at the top. Then, to the horror of the boys and girls who watched him from the street, he fell downward to his death. Andrew was leading a party of boys who were playing "Follow the Leader."

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every colds the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by W. T. Brooks. You need no other guarantee. dece

Favors River Improvement.

President-elect Taft, in discussing river improvement said he was in favor of issuing bonds and pushing the Ohio River work to completion. He said he believed that future generations should share the cost of improvements.

Mrs. Benham—As the story goes, Rip Van Winkle slept twenty years. Benham—I wonder if his breakfast was ready when he woke up.

Preparing for Struggle.

The Taft and Cannon forces are lining up for a bitter struggle for control of the lower house. Republican members are at a loss to decide whether to cast their influence with the speaker or the incoming Administration. It is generally believed that a compromise will be reached by which Cannon will be elected again and will agree to some changes in the rules.

Youth and Age.
Indeed it is woeful when the young usurp the place or despise the wisdom of the aged; and among the many dark signs of these times, the disobedience and insolence of youth are among the darkest. But with whom is the fault? Youth never yet lost its modesty where age had not lost its honor; nor did childhood ever refuse its reverence except where age had forgotten correction.—Ruskin.

1 tf PARIS BOOK STORE.

New Factory a Go.

Articles of incorporation of the Paris Novelty and Manufacturing Co. have been filed at the County Clerk's office in this city by Messrs. J. T. Vansant, H. A. Power, W. O. Hinton, J. W. Bacon and C. Arnsperger. The capital stock of the new concern is \$10,000 divided into 400 shares of \$25 each. A new patented churn and other household novelties, of which the company owns the patent rights, will be among the articles manufactured and placed upon the market. The new industry, when fully established and in running order, will employ about fifty people and was secured for Paris through the efforts of the Paris Commercial Club, the citizens of Paris taking one-half the stock. In order to encourage manufacturing interests and lend assistance to all such enterprises as the above the City Council has passed an ordinance exempting from taxation for a period of five years the above named company.

SURETY BONDS.

Charles H. Herrin, a young man who resides with his mother, on South Main street, was arrested Tuesday evening by Deputy Sheriff W. F. Talbott and placed in jail. Herrin was one of Uncle Sam's boys who saw hard service in the Philippines and lost his health in that country. He has once before, since his return from army service been confined in the asylum, and again began to act queerly Tuesday, his family fearing he might do himself bodily harm. An effort will be made to have Herrin recommitted to the asylum without trial.
